DESCRIPTORS Educational Research; *High Schools; Newsletters; *Psychology; School Counselors; Secondary Education; Social Studies; State Surveys; Tables (Data); Teaching Methods; Textbooks
IDENTIFIERS Illinois

ABSTRACT

This document contains (1) a bibliography of precollege psychology textbooks; (2) a newsletter and historical correspondence of the National Council for the Social Studies (NCSS) Special Interest Group (SIG) of Psychology Educators; and (3) the tabular results of a comparative study of high school psychology teachers certified in social studies, in guidance counseling, and in all other areas. The bibliography cites textbooks which are intended for use in high school level psychology courses. Provided for each title is complete bibliographic information and the contact person in the respective publishing company. The second part of the document contains a sample of the NCSS/SIG of Psychology Educators Newsletter and some correspondence of that group. Included also is a membership participation survey, the preliminary results of a questionnaire survey regarding the status of pre-college sociology, and descriptions of the various 1980 NCSS sessions dealing with psychology. The third part of the document briefly describes the results and methodology of a comparative study and contains all the tabular results. The data analysis revealed that psychology as a separate course of study for credit was taught in 331 of the 554 Illinois secondary schools responding to the questionnaire. One of the major goals of the study was to determine if the certification areas of the teachers would translate into different approaches to the courses. The study shows that all of the teachers used the same teaching methods. (Author/RM)

Materials related to the National Council for the Social Studies Special Interest Group (SIG): Psychology, particularly in connection with SIG: Psychology sessions during the 1980 NCSS annual meeting in New Orleans, November 27, 1980.

ABSTRACT

This set of materials include: (a) the most current bibliography on the major suppliers of text materials for the precollege psychology market; (b) a collection of newsletters and historical correspondence related to the NCSS SIG: Psychology Educators from 1977-1980; and (c) tabular results of a comparative study of high school psychology teachers certified in the social studies, in Guidance Counseling, and in all other areas. Many of these materials were distributed at the SIG: Psychology Educators annual meeting in New Orleans on November 27, 1980.

The following is a list of textbooks which have either been written specifically or are being promoted for use in high school level psychology courses. I have made every effort to obtain the latest information available about the texts identified by the various publishing companies. Listed with the titles is (as was possible to obtain) the contact person in the respective publishing company should teachers not be able to acquire information from local or state sales representatives. With few exceptions, I talked personally with the individuals mentioned. These entries then provide as much information about each text as was available up to mid-November, 1980.**

In preparing this list for circulation to teachers and curriculum planners, I sought to make available information which would be descriptive and helpful. It is hoped that this list will accomplish those goals. Subsequently, you are (and have been) invited to contact these persons and companies concerning their respective texts for specific additional information and/or serious consideration for adoption purposes. You will find that their responses to sincere requests to be both generous and rapid. At the same time, abuses of this bibliography will ultimately restrict the examination copy policies of many companies as well as raise the prices of the texts themselves. You are encouraged to use these references as the publishers and author intended as they worked to make this information available to you.

Borrowed from the American Psychological Association, I have used codes IM, TF, SG, and SW to refer to materials that accompany each text. They translate as follows: IM--Instructor's Manual; TF--Test-Item File; SG--Study Guide; SW--Student Workbook.

Annual Editions. (Separate volumes are available on: Abnormal Psychology, Human Development, Human Sexuality, Psychology, Personal Growth and Adjustment, and other topics), 1980/81, approximately 250 pages each volume.

NEWSLETTERS AND HISTORICAL CORRESPONDENCE
OF THE
SPECIAL INTEREST GROUP: PSYCHOLOGY EDUCATORS
OF THE
NATIONAL COUNCIL FOR THE SOCIAL STUDIES
(1977-1980)

Newsletter of the National Council for The Social Studies
Special Interest Group: Psychology

October 1, 1980

Dear NCSS SIG: Psychology Member:

This package of materials has been put together to: (a) inform you about the NCSS Annual Meeting in New Orleans, especially of the several sessions on teaching Psychology which are included on the program, (b) obtain information about our membership, especially what our members are doing in relation to their teaching Psychology in the secondary school, and (c) obtain information about possible future directions, programs, and activities of the SIG: Psychology as an organization. I sincerely urge you to study these materials, return by mail the two question forms, and attend our sessions in New Orleans.

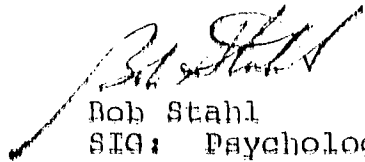

The NCSS Annual meeting information has been included. The Hilton Hotel is already filled, so rooms are now available at the Marriot Downtown (two blocks from the Hilton) for the same rates as the Hilton. Mail your hotel reservations along with your Advanced Registration fees directly to the NCSS Central Office in Washington. Please do both as soon as possible. See the gold sheet for more details on the meeting and the pink forms for reservations and registration.

Enclosed is a rather lengthy questionnaire survey form which would provide the SIG with information about our membership, especially about the kinds of courses they teach. This would allow the SIG offices to better outline programs and sessions to meet the specific needs of the membership. Please take a few minutes to fill out the form and mail it in the return self-addressed envelope. A summary of the questionnaire received before mid-November will be reported to the SIG members present in New Orleans on November 27th. A summary of all questionnaires received will be mailed to all members about February 1.

Also to be studied, marked, and returned is a sheet asking for specific comments from you as to activities, programs and other services the SIG as an organization should develop and/or provide its membership. Please pay special attention to the section about your participation in the SIG. The blue sheet should be returned in the self-addressed envelope along with your questionnaire.

As the new decade begins, it is hoped that SIG: Psychology will move more systematically and positively into activities designed to help teachers and curriculum leaders improve the teaching of Psychology to high school students. The SIG needs your active participation as well as your interest and support. At this time, your own individual

response to the items included in this packet will signify how active our membership is and wants to become in the months and years ahead.

Bob Stahl

SIG: Psychology Newsletter Editor (1980)

SIG: Psychology Program Chairperson (1980)

Should you have any items of interest or news for the next newsletter, comments or questions concerning the materials in this packet, or questions about the NCSS meeting in New Orleans, please contact:

Bob Stahl
Assistant Professor of Secondary Education
Arizona State University
Tempe, AZ 85281 (602-965-7101)

Membership Participation Survey

National Council for the Social Studies Special Interest Group: Psychology

The purpose of this survey is to identify the kinds of activities, programs and services the SIG membership wants the organization to provide to/for them. It also seeks information about the degree and amount of active participation the membership will provide in order for the SIG to accomplish its mission(s).

1. There are a number of activities, programs, and services the SIG could provide its membership. Below are listed several items. Please rank order the three(3) you consider to be most important as the ones you most want the SIG to provide to you in 1980-82:

_____ sessions at the NCSS annual meeting (in Detroit, November, 1981)
 _____ sessions at the NCSS regional meeting
 _____ a quarterly newsletter
 _____ copies of curriculum materials used by other psychology teachers
 _____ other _____

2. If you indicated a newsletter above, what specific types of information should this newsletter contain? _____

3. One way to get information about new materials in Psychology to our members is to make our mailing list available to commercial publishers and other groups interested in this curriculum area. Are you in favor of the SIG: Psychology membership mailing list being made available for such purposes?

_____ yes _____ no

(If a majority votes in favor of the policy, the SIG shall make available its mailing list for these purposes.)

4. In order for the SIG to accomplish its tasks, active membership participation is essential. Below is a list of possible activities for our members. Please indicate with a check(✓) your response:

		Possible Committees	Member	Chair
_____ a)	serve on a Committee of the SIG	Membership	_____	_____
_____ b)	serve as a Chairperson of a SIG Committee	Program	_____	_____
		Newsletter	_____	_____
		Special Publications	_____	_____
		Regional Meetings	_____	_____
		Nominations	_____	_____
_____ c)	serve as an officer of the SIG			
_____ a)	Chairperson			
_____ b)	Secretary - Treasurer			
_____ c)	Vice-Chairperson			
_____ d)	Newsletter Editor			

- _____ d) contribute items of interest to the newsletter
- _____ e) contribute sample of activities you've developed for distribution to other SIG members
- _____ f) serve as a presenter at a SIG session on an NCSS national or regional meeting program
- _____ g) would serve as presenter if someone else coordinates the session and writes the proposal for me to get on the program
- _____ h) would serve as discussant or reactor to a session, but not as a presenter
- _____ i) would serve to coordinate regional or state activities to promote the teaching of psychology in the high school
- _____ j) am not interested in being active other than pay dues
- _____ k) other (please specify) _____

5. I plan to attend the NCSS national meeting in:

- _____ New Orleans, November, 1980
- _____ Detroit, November, 1981
- _____ Your NCSS Regional in 1980/81 (What city? _____)
- _____ Your state CSS meeting in 1980/81 (state: _____)

6. Keep in mind that the SIG is not interested in our past performance(s), rather we are concerned with our present and future. Please provide other comments or suggestions to help your SIG better serve you:

NAME _____ POSITION _____

SCHOOL _____

ADDRESS _____

CITY _____ STATE _____ ZIP _____ PHONE () _____

PLEASE RETURN THIS FORM IN ENVELOPE PROVIDED

PRELIMINARY REPORT OF QUESTIONNAIRE
SURVEY TO NCSS SIG: PSYCHOLOGY MEMBERSHIP
RELATIVE TO THE STATUS OF PRE-COLLEGE PSYCHOLOGY

Prepared by:

ROBERT J. STAHL and PAMELA HRONEK

Department of Secondary Education
Arizona State University
Tempe, AZ 85281

In early October, 1980, a questionnaire survey was mailed to 211 persons listed on the SIG membership lists as well as to others involved in the teaching of psychology on the precollege level. As of November 21, 52 teachers returned questionnaires while 16 others were returned by the Post Office as "non-deliverable". The data below represent a summary of the responses as of November 21st.

(HANDOUT AT NEW ORLEANS MEETING)

1. The grades included in the school: 5 7-12 47 9-12
2. Indicate the appropriate classification of your school:
48 a) Public 0 b) Private (non-religious) 1 c) Private (religious)
4 d) Parochial (Catholic) 0 e) Other (specify) _____
3. Indicate the size of your school's enrollment (grades 9 and above):
1 less than 150 1 150 to 350 1 351 to 500
9 501 to 1,000 17 1,001 to 1,500 18 1,501 to 3,000
3 more than 3,000
4. What is the closest approximate ratio of whites to blacks in your school?
32 a) 95%white/5%black 10 b) 80%/20% 2 c) 65%/35%
1 d) 50%/50% 0 e) 35%/65% 1 f) 20%/80%
5. Indicate the most appropriate description of the area which your school serves:
12 a) Urban 9 b) Rural 26 c) Suburban 1 d) Inner City
6. If psychological content is included as a portion of any course in your school's curriculum, indicate the course(s) which includes it:
11 a) Contemporary Issues 27 e) Child Development
10 b) Senior Social Studies 32 f) Sociology
0 c) Problems of Democracy 15 g) Home Economics
16 d) Family Life/Marriage & the Family h) Other (specify) _____
7. Is Psychology taught as a separate course for credit in your school? 46 a) Yes b) No

8. Do you teach the separate course(s) in Psychology in your school? 44 a) Yes 2 b) No
9. Is there an Advanced Psychology or Psychology II course offered at your school? 12 a) Yes 36 b) No
10. Is the Psychology course an elective or required course? 48 a) Elective 1 b) Required
11. How many sections of Psychology do you teach each day? 5 sections
12. Does your course tend to be "Behavioristic" or "Humanistic" in its approach? 6 a) Behavioristic 24 b) Humanistic 12 Eclectic
13. Indicate the length of time the Psychology course is offered as a separate course of study at your school:
0 a) No Psychology course is taught 1 b) six weeks 4 c) nine weeks
27 d) one semester/ $\frac{1}{2}$ year 18 e) a full year course — f) Other (Specify)
14. How many students took Psychology as a course of study last year at your school? 7,757 students
15. How many students took or are currently enrolled in Psychology courses this year at your school? 6,872 students.
16. Please indicate the sex of the majority of students in your Psychology classes:
42 a) Female 3 b) Male 5 About even
17. What is the closest approximate ratio of whites to blacks in your Psychology classes?
44 a) 95%white/5%black 3 b) 80%/20% 0 c) 65%/35%
0 d) 50%/50% 1 e) 35%/65% 2 f) 20%/80%
18. What grade level(s) of students are eligible to take the Psychology course?
0 a) 9th grade 1 b) 10th grade 0 c) 11th grade 18 d) 12th grade
5 e) 10-12th grades 24 f) 11-12th grades 1 g) Other(specify) 7-9
19. Topics and content generally taught in Psychology courses in the secondary school are listed below. Please indicate those topics you include in your Psychology course:
- | | |
|--|---|
| <u>31</u> <u>60</u> a) Intelligence | <u>27</u> <u>52</u> l) Heredity and Genetics |
| <u>49</u> <u>94</u> b) Personality Theory | <u>29</u> <u>56</u> m) Human Growth and Development |
| <u>28</u> <u>54</u> c) History of Psychology | <u>33</u> <u>44</u> n) The Adolescent |
| <u>32</u> <u>62</u> d) Motivation | <u>31</u> <u>60</u> o) Sensations and Perception |
| <u>40</u> <u>77</u> e) Emotions | <u>29</u> <u>56</u> p) Social Behavior |
| <u>49</u> <u>94</u> f) Mental Illness | <u>8</u> <u>15</u> q) Child Care |
| <u>46</u> <u>88</u> g) Mental Health | <u>29</u> <u>56</u> r) Marriage and the Family |
| <u>22</u> <u>42</u> h) Mental Retardation | <u>21</u> <u>40</u> s) Drugs, Alcoholism, etc. |
| <u>6</u> <u>12</u> i) Statistics | <u>28</u> <u>54</u> t) Love |
| <u>45</u> <u>87</u> j) Learning Theories | <u>26</u> <u>50</u> u) Parapsychology, ESP |
| <u>22</u> <u>42</u> k) The Human Body (Physiology) | <u>39</u> <u>75</u> v) Abnormal Behavior |
20. Do you use a state-adopted textbook in teaching this course? 11 a) Yes 36 b) No
21. Below are listed several textbooks which are most often used in this course. Please indicate the text(s) you use:
- | |
|--|
| <u>18</u> a) Psychology: Its Principles and Applications (Engle and Snellgrove) |
| <u>4</u> b) Psychology: Understanding Ourselves and Others (Tallent and Spungin) |
| <u>18</u> c) Understanding Psychology (CRM/Random House) |
| <u>0</u> d) Living Psychology (Hershey and Lugo) |
| <u>1</u> e) Psychology (McKeachie and Doyle) |
| <u>1</u> f) Introduction to the Behavioral Sciences (Sandberg and Fenton) |
| <u>1</u> g) Psychology Today-(Text, not magazine) (CRM) |
| <u>12</u> h) Psychology For You (Sol Gordon) |
| <u>2</u> i) Psychology For Living (Sorenson and Malm) |

- j) Psychology: An Introduction (Prentice-Hall)
 k) Invitation to Psychology (Ragland and Saxon/Scott, Foresman)
 l) Psychology: Understanding Yourself (Bennecke)
 m) The Social Animal (Aronson)
 n) Experiencing Psychology (Goodale and Goldberg)
 o) Psychology and Life (?)
 p) Psychology Today and Tomorrow (Canfield/Harper and Row)

22. To what extent do you use the textbook in teaching your course?

- 3 a) it is never used 9 b) it is used occasionally
 20 c) it is used often 11 d) it is used a great deal of the time
 4 e) it is used for lack of any other relevant reading material(s)

23. What suggestions, if any, would you make to authors and publishers of psychology textbooks and supplementary reading materials in order for their books to better meet your needs?

24. Below are listed a number of Objectives for teaching psychology on the secondary school level. Check those Objectives which most accurately reflect the objectives you set for your Psychology course(s):

- F 2 4 a) to help students in their vocational planning.
 42 81 b) to help develop an appreciation for Psychology as a field of scientific knowledge and inquiry.
 22 42 c) to prepare students for college psychology courses.
 34 65 d) to eliminate many of the misconceptions students have about psychology and psychologists.
 34 65 e) to assist students in preparing for family life and family living.
 21 40 f) to assist students in developing a basic philosophy of life.
 42 81 g) to help students understand and deal with their personal problems.
 40 77 h) to assist students in understanding the vocabulary associated with psychology.
 40 77 i) to assist students in adjusting to life and solving life's problems.
 51 98 j) to help students better understand and accept themselves as individuals.
 22 42 k) to apply psychological knowledge to understand contemporary social problems and events.
 34 65 l) to help students cope with problems associated with emerging adolescence.
 — m) other (specify) _____
 — n) other (specify) _____

25. Without looking back to the previous page, please indicate those topics that you believe should be included in high school psychology courses:

- | | | | |
|---------|--------------------------------|---------|---------------------------------|
| F 36 69 | a) Intelligence | F 45 87 | m) Human Growth and Development |
| 49 94 | b) Personality Theory | 26 50 | n) The Adolescent |
| 30 58 | c) History of Psychology | 41 79 | o) Sensation and Perception |
| 41 79 | d) Motivation | 32 62 | p) Social Behavior |
| 46 88 | e) Emotions | 26 50 | q) Child Care |
| 46 88 | f) Mental Illness | 30 58 | r) Marriage and the Family |
| 45 87 | g) Mental Health | 30 58 | s) Drugs, Alcoholism, etc. |
| 24 46 | h) Mental Retardation | 27 52 | t) Love |
| 4 8 | i) Statistics | 32 62 | u) Parapsychology, ESP |
| 45 86 | j) Learning Theory | 41 79 | v) Abnormal Behavior |
| 27 52 | k) The Human Body (Physiology) | — | w) Other _____ |
| 21 40 | l) Heredity and Genetics | — | x) Other _____ |

26. Please indicate the highest level of your college course training:

- 9 a) Bachelors (degree held) 9 b) Post-Bachelors
12 c) Masters (degree held) 27 d) Post-Masters
1 e) Specialist (degree held) 2 f) Doctorate (degree held)

27. Please indicate the one area of certification you are currently using in your present school position:

- 35 a) Social Studies/Science 1 e) Home Economics
0 b) Science 1 f) Guidance and/or Counseling
12 c) Psychology — g) Other (Specify) _____
1 d) Administration

28. How many hours of college course credit have you had in Psychology and Educational Psychology course work? (Indicate "0" if no hours): Average: _____ semester

29. Do you feel adequately prepared to teach psychology on the secondary school level in light of your college course background in this subject area? 47 a) Yes 5 b) No

30. Do you feel a need for more materials and instructional resources to help you do a more adequate job of teaching psychology? 47 a) Yes 4 b) No

31. Would you consider using more materials, audio-visual aids, and instructional resources if they were made available for your use? 51 a) Yes 1 b) No

32. If such instructional materials were available for purchase, would you or your school have funds available to purchase these teaching aids? 36 a) Yes 16 b) No

33. Is Psychology as a course of study considered a popular course for students to take at your school? 50 a) Yes 2 b) No

34. Below are listed a number of different methods available for teaching psychology. In addition, there is a scale to indicate the frequency in which you might use each of these methods. Please indicate which methods you use and the frequency of their use.

Method	Very Freq.	Frequently	Sometimes	Rarely	Never
a) Text-and-lecture	<u>5</u>	<u>9</u>	<u>16</u>	<u>5</u>	<u>0</u>
b) Lecture	<u>5</u>	<u>8</u>	<u>14</u>	<u>8</u>	<u>8</u>
c) Teacher demonstrations	<u>5</u>	<u>10</u>	<u>16</u>	<u>5</u>	<u>0</u>
d) Discussion (other than review)	<u>23</u>	<u>10</u>	<u>8</u>	<u>1</u>	<u>5</u>
e) Student lab experiments	<u>2</u>	<u>10</u>	<u>9</u>	<u>8</u>	<u>4</u>
f) Small group discussions	<u>5</u>	<u>9</u>	<u>23</u>	<u>2</u>	<u>0</u>
g) Guest speakers	<u>3</u>	<u>5</u>	<u>17</u>	<u>16</u>	<u>3</u>
h) Values clarification activities	<u>7</u>	<u>7</u>	<u>20</u>	<u>16</u>	<u>0</u>
i) Other (Specify) _____	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>

35. What type(s) of additional materials and instructional resources related to the teaching of psychology would you want to see made available for your use? (Indicate as many of these you believe you really would use or would really like to see available for your use):

F	%	F	%
<u>15</u>	<u>29</u>	<u>18</u>	<u>35</u>
<u>17</u>	<u>33</u>	<u>17</u>	<u>33</u>

ANNOUNCING: NATIONAL COUNCIL FOR THE SOCIAL STUDIES SIG: PSYCHOLOGY SESSIONS

The 60th Annual Meeting of the National Council for the Social Studies will be held in New Orleans on November 25-29, 1980. Besides the usual variety of quality sessions on the program, three sessions have been arranged for SIG: Psychology membership. All of these are scheduled for Thursday, November 27.

8:00 - 9:15 A.M.

"Teaching Psychology to High School Students: Practical and Effective Methods, Materials, and Strategies"

Description:

This session will emphasize helping teachers in a variety of practical skills relating to methods and strategies of teaching psychology. Participants will also be given suggestions on how to develop and use materials and texts more effectively. Participants are invited to share their own successful techniques and strategies with others.

Presenters:

James C. Matiya, Carl Sandberg High School
Orland Park, Illinois
Dale Kinney, Ralston High School
Omaha, Nebraska
Barry Beerman, George Hewlett High School
Hewlett, New York

Room:

Ascot Room, Hilton

12:00 - 1:30 P.M.

"Teaching High School Psychology: An Overview of Materials and Texts Available for the Psychology Course"

Description:

Publishers, editors, and authors of Psychology materials and texts for the high school level course will briefly highlight the strengths of their respective materials to provide teachers with an awareness of what's available to them. A dialogue between these presenters and the participants (i.e., people who use or may use these materials) will be encouraged.

Facilitator:

Barry Beerman, Hewlett, New York

Presenters:

Richard Kasschau, University of Houston
(Text published by Prentice-Hall)
Bill Fogerty, Random House
Philip Sivek, Dushkin Publishers
Natalia Zunino, Harcourt, Brace, Jovanovich
Margaret C. Moran, Harper & Row

(These individuals or their representatives will present)

In addition, it is expected that authors and representatives of other publishing firms will also be presenting their materials.

Room: Ascot Room, Hilton

1:30 - 3:00 P.M. SIG: Psychology Business Meeting

Description: The business meeting will stress the ways the SIG can better serve the membership. Suggestions for the 1981 NCSS program for Detroit will be requested. Ways to involve more psychology teachers in the organization, activities, and programs of the SIG will be considered.

Presider: Barry Beerman Chairperson, SIG: Psychology
George Hewlett High School, Hewlett, N. Y.

Room: Ascot Room, Hilton

3:00 - 5:00 P.M. SIG: Psychology Hospitality Suite

Description: A get together of SIG: Psychology members and others interested in the teaching of high school psychology. Refreshments will be available.

Room: T.B.A. (Place will be announced at earlier SIG session)

9:00 A.M. - Noon "Creative Mind Search"

Description: NCSS Table Session. Table "S"

Participants: Jim Dick, University of Nebraska
Dale Kinney, Ralston High School, Omaha, NE
Bob French, Ralston High School, Omaha, NE

Room: Hilton-Napoleon Ballroom

SEE YOU AT THESE PSYCHOLOGY SESSIONS!!!!!!!!!!!!

PLEASE VISIT THE EXHIBIT HALL AND SEE ALL THE NEW MATERIALS
AVAILABLE FOR YOUR PSYCHOLOGY COURSES!!!

YOU ARE INVITED TO ATTEND A SESSION ENTITLED:
TEACHING HIGH SCHOOL PSYCHOLOGY:
AN OVERVIEW OF MATERIALS AND TEXTBOOKS AVAILABLE
FOR THE PSYCHOLOGY COURSE.*

WHEN?: Thursday, 12:00 Noon - 1:30 P.M. WHERE: Hilton - Ascot Room

COLLEGE OF EDUCATION

DEPARTMENT OF SECONDARY EDUCATION

Dear Representative:

The Special Interest Group: Psychology of the National Council for the Social Studies has been fortunate to secure two sessions on the program for the Annual NCSS meeting to be held in New Orleans November 25-29. It is expected that the two sessions including the business meeting will be held on Friday, November 28.

Of special interest is one session entitled, "Teaching High School Psychology: An overview of Materials and Textbooks Available for the Psychology Course", which will include brief overviews by authors/textbook representatives/editors of the major features of their psychology textbooks and ancillary materials. Individual presenters are to bring only one copy of each item to the session while their respective booths in the Exhibit Hall are encouraged to have any number of additional items as are appropriate. Each presenter would spend a few minutes highlighting their "Psychology Program". We will have enough time to allow participant discussions in a dialogue about materials, texts, etc. We want to stress the positive aspects of each program or text presented while avoiding a pro-con discussion of the materials and approaches.

Following the session, we will hold a business meeting to discuss the activities and the future of SIG: Psychology. Authors and/or representatives are encouraged to stay for this meeting. At present, I am trying to arrange for a "hospitality suite" for the SIG: Psychology membership and guests after the Business Meeting so that we can continue our dialogue.

Besides a SIG Newsletter, the APA newsletter, The High School Psychology Teacher, will include a description of the program being prepared for New Orleans. We plan to widely advertise our program to make it the largest attended SIG meeting in our short history.

At this time, I invite you to have your precollege textbook and/or ancillary materials presented at the SIG: Psychology sessions described above. Please send the name(s) of the individuals(s) who will be representing your company's materials along with a listing of those materials to be presented so that I can compile these for a short bibliography to pass out. Include prices where possible.

I would also appreciate receiving examination copies of these materials to keep abreast of latest developments and materials in this field as well as to help answer the requests for information that continually come to me in the mail.

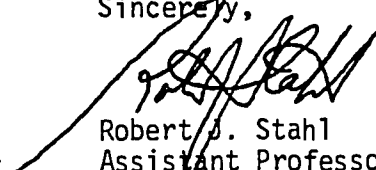

If possible, please get information to me by August 31 so that we can meet the appropriate deadlines for the publicity newsletters. If you do not intend to send an author or representative, but want your psychology materials to at least be listed in the bibliography, please send the necessary information and/or those copies to me before September 30 to make sure they are included in the bibliography.

The second session sponsored by the SIG will feature a "how-to-do-it" method of teaching psychology demonstration by successful classroom teachers. As soon as the specific program details as per day and time of these sessions are available, I will forward this information to you.

If, for whatever reasons, you are unable to make a brief presentation of your materials, I would like to invite you to our two sessions to keep you abreast of "who's who" and "what's what" in the area of precollege psychology.

On behalf of the SIG membership, I appreciate your consideration on this request and thank you for your efforts to make this a successful program on precollege psychology.

Sincerely,

Robert J. Stahl
Assistant Professor of Education
1980 SIG: Psychology Program Person

RJS/sh

Psychology Educators' Special Interest Group

news letter

Psychology Special Interest Group is now a reality. Over the past year our membership has increased. We have had an active steering committee making plans for the Annual Meeting. Now that time draws near, Saturday, November 26 is the big day. A panel on the topic "PRE-COLLEGE PSYCHOLOGY: PURPOSES, PRACTICES, AND PROSPECTS" is planned. Ed Forsythe, Fairfax (VA) High School is the moderator. Panelists are: Margo Johnson, Staff Associate, American Psychological Association; Dr. Robert Stahl, Mississippi University for Women; Susan Allen, Falls Church (VA) Public Schools and Nancy Sprague, George Mason High School, Falls Church (VA). It is hoped that an elementary teacher can be added to the panel. (Any volunteers?) The panel will focus on the nature and purpose of pre-college psychology courses with a heavy emphasis on audience concern. Dr. Stahl has studied in depth the courses offered in several states and has published a paper on the topic. The Second Annual Business Meeting will follow the panel. In addition, eighteen publishers will have materials on display at our meeting in the South Exhibit Hall of the Netherland Hilton Hotel. Events get under way at 3:00. There is now a reason for psychology teachers to come to the NCSS convention this year.

WANT TO HELP CHANGE PSYCHOLOGY MATERIAL?

In an attempt to upgrade the content of pre-college psychology courses, the American Psychological Association supported by the National Science Foundation is developing a human behavior curriculum project for secondary schools. Units are now being tested in the classroom. Among the units undergoing national trials are "States of Consciousness," "Three Faces of Personality," and "Social Influences on Behavior." If you would like to take part in the national trials or want more information contact John K. Bare, Carleton College, Northfield, Minnesota 55057. Social Studies supervisors have been sent some information.

DUES NEWS

Those PESIG members who paid their dues last year have good news coming. You have been automatically enrolled as a member for 1977-78. You will not have to pay for this year. If you have not joined, you can do so by marking the PESIG box on the NCSS membership form and add \$5 to your dues.

WHEN WILL PEOPLE HELP IN A CRISIS?

Many are familiar with Darley and Latene's landmark work on the propensity of individuals to help another person in a crisis situation (Darley, John M. and Bib Latene, "When Will People Help in a Crisis?" Readings in Psychology Today, Calif., CRM, 1969). A crisis staged (carefully!) for teaching purposes can bring the inhibition of individuals into sharp focus for a class.

The teacher must enlist the help of two students with some acting ability. They should stage an argument just outside your door. The fight should begin in a normal tone of voice and build in volume ending in a fight. (Obviously, it is necessary to discuss this with the administration and any teachers whose classes are nearby.) The teacher may be giving a lecture during the fight.

After the victim is injured the teacher should ask (1) Did anyone hear anything? (2) What did you think it was? (3) If you thought it was an emergency, why did you not act? The article can then be presented to students with appropriate follow-up on the causes and normalcy of not responding in a crisis.

--Susan Demusky Allan

SCHEDULE OF PESIG EVENTS

Saturday, November 26, 1977
3:00 - 6:00 South Exhibit Hall
Netherland Hilton Hotel

1. Panel - "Pre-College Psychology:
Purposes, Practices, and
Prospects."
2. Second Annual Business Meeting
3. Book Exhibit

ONE SMALL STEP FOR HUMANKIND,
ONE SMALL VICTORY FOR PESIG

Included in the goals of PESIG is an attempt to effect changes in books used by pre-college classes in order to make them meet our needs better. Let's hear it for one publisher. On the strength of an earlier flyer announcing PESIG's arrival, one publisher sent our president a manuscript and invited comments. President Vander Putten made several comments that we hope were incorporated. It's one, but it's a start.

MEET THEM IN CINCY

NCSS has two teacher associates this year. Dorothy Wolfred was on the original PESIG steering committee and has been active in the Virginia Council. Don Shaver helped develop a course on Human Sexuality at Tomalpais School District, Marin County, California. They will be at our meeting after they finish a workshop on Council Development. They will be happy to discuss their work with you in Cincinnati.

PSYCH MATERIALS ON SPECIAL DISPLAY

During PESIG's Saturday meeting, eighteen publishers will have books and materials of interest to pre-college psychology teachers. Another good reason for joining us in Cincinnati is to find out what's new.

HUZZAHS! ARE IN ORDER

So Huzzah! to PESIG President Elizabeth Vander Putten and Brian Larkin, NCSS Executive Director. They tied the marital knot during the summer.

FALL, 1978

58th Annual NCSS Convention Issue

Dear Colleague:

I am pleased to have this opportunity to write to you on the occasion of the 58th National Council for the Social Studies Annual Meeting, in Houston, Texas. Psychology is perhaps one of the fastest growing disciplines in pre-college education. Those of us who teach this exciting curriculum should have available any assistance possible to insure that we perform in the most effective manner.

Many innovative ideas and programs are being undertaken by teachers throughout the country. I have found that many teachers have worked long and hard to put together interesting and imaginative classroom materials and lessons. However, teachers tend to work alone in their preparation. Although there are a diversity of ideas a lot of our effort is being duplicated. There is no need for everyone of us to re-invent the wheel. I hope that this newsletter will serve as a vehicle for the sharing of information. The benefits which have been obtained by one teacher should, and will, be reproduced and shared by us all.

The convention program committee has planned a series of valuable workshops and panel discussions for the annual meeting, under the direction of Dr. Robert Goodale of Boston State College. I would like to commend Bob for planning an excellent program.

Let us continue to work together to achieve greater sharing of innovations and curriculum in psychology.

Yours truly,

Barry Beerman

By Robert A. Goodale

As chairperson of the workshop committee, I am happy to report that we have accomplished all of the goals that were expressed in Cincinnati last year.

After a short Psych SIG business meeting on Wednesday afternoon, November 22nd, Phil Newman, the current director of the Human Behavioral Curriculum Project will bring attendees up to date on complete modules and feedback on those in use. Sample modules will be available for perusal, and no doubt the opportunity to formally register an interest in field testing will also be provided. This will be an important opportunity for social studies teachers to communicate their needs directly to Phil.

Following Phil's presentation, several leading psychology text authors will give their views on the role of psychology in building a sense of community. Questions will be entertained. Allowing those present to voice their opinion and suggestions directly to the authors of texts in classroom use.

The panel of social studies teachers is especially gratifying in that traditional and unique approaches will be presented. Chris Castendyk is a highly popular and committed teacher in the traditional mold from Tantasqua Regional High School in Brookfield, Massachusetts. Ms. Margot Stern Strom is from Brookline High School in Brookline, Massachusetts, and she will discuss a unique course built around the Nazi Holocaust. Finally, Marvin Tautwein from Robbinsdale Senior High in Robbinsdale, Minnesota will discuss sample projects from his unique course committed to the principles of learning outlined by B. F. Skinner.

Last but not least, we have arranged to have several new psychology films to be shown at various times throughout the convention. Some of these films are: Young Dr. Freud; Pavlov Himself; Suicide at 17; Adolescence and Learning Disabilities; The Date; and Teaching Strategies for Moral Development (featuring Psych-SIG panelist Margot Stern Strom).

✱ Special thanks to Duarte Santos for his design of the Newsletterhead...

Wednesday, November 22nd, 1978
Time: 4:00 pm - 6 pm
Place: Convention Center 204
Events:

The Third Annual Psychology SIG business meeting will be immediately followed by a presentation by Phil Newman, current director of the Human Behavioral Curriculum Project. This will be concluded by the presentation, "Psychology Role in Societal Survival: The Authors Speak."

Friday, November 24th, 1978
Time: 11:15 am - 12:30 pm
Place: Convention Center 106
Event:

"Psychology in the Community."

Psychology-SIG Materials Display

Psych-SIG has arranged to have a display exhibiting new and existing materials in pre-college psychology. Visit us in the Albert Thomas Convention Center, November 22 - 24th, 1978.

"IT WORKED FOR ME..."

THE BOOK SHELF

THE FILM SHELF

These spaces will be a regular feature of the Psych-SIG Newsletter. We want to encourage teachers to share class lessons and brief reviews of texts and films. Your comment does not have to be lengthy. Simply -- "Tell it like it is!" Send your ideas to:

Dear Psychology Educator:

There is some exciting news I'd like to share with you!

The NCSS has approved the formation of special interest groups. And the first to be formally recognized is the PSYCHOLOGY EDUCATORS Special Interest Group (SIG).

The leaders of the PESIG have organized a program for the NCSS Annual Meeting in Cincinnati. Further information about that program is contained in their newsletter. (I am enclosing a copy of it, and hope you enjoy reading it.)

I am excited and pleased about the PSYCHOLOGY EDUCATORS SIG. It was the test case for the NCSS Board of Directors. And, it was the first SIG which completed the process of acquiring official status. Nearly twenty-five other SIG's are currently being founded.

The PSYCHOLOGY EDUCATORS SIG appears to be particularly appealing. Since we announced their formation in The Social Studies Professional last spring, we have received hundreds of requests for information and many applications for membership.

From my point of view, SIGs are another way the Council can serve its members. SIGs provide for different needs and interests among social studies educators who teach many different subjects and courses. Their newsletters, meetings, and other programs offer special benefits and services.

The enclosed brochure describes in more detail the objectives and services of the PSYCHOLOGY EDUCATORS Special Interest Group.

I am excited by the pioneering work of the PSYCHOLOGY EDUCATORS Special Interest Group, and believe you may find their activities equally exciting.

Sincerely yours,

Brian J. Larkin,
Executive Director

Psychology Educators' Special Interest Group

Objectives:

- ...To encourage an awareness of psychology as a field of study and career choice.
- ...To encourage the development and expansion of the teaching of psychology as a behavioral science at the pre-college level which can enable students to examine and understand patterns of individual development and variations in human behavior.
- ...To provide opportunities for teachers to learn new ideas concerning content, teaching strategies, and materials about psychology, level k-12.

Services: Publications. PESIG publishes newsletters and other papers containing significant items of interest to and from its membership. Future plans include: an NCSS bulletin devoted to the role, functions and strategies of pre-college psychology; articles and items in **Social Education** and **The Social Studies Professional**; a membership directory designed to facilitate the exchange of information among those concerned; and ad hoc mailings of substantive material of special interest.

Representation: PESIG has members on state and national educational committees and is represented at state and national conferences.

Conferences, Conventions and Workshops: PESIG provides information pertaining to state, regional and other workshops, and participation by PESIG members is welcomed at all levels. Your membership helps assure that psychology educators have input at all levels of social education.

Annual Meeting: PESIG will convene sessions at the Annual NCSS Meeting.

Forums: The publications, workshops and other events cited above provide a forum for discussion and debate on significant issues and an arena for exposure of pre-college psychology which can and will effect significantly the continuing development of social education.

Membership and Dues: The Psychology Educators' Special interest group dues are \$3.00. The National Council for the Social Studies dues are \$25.00. PESIG members must join the NCSS. Total: PESIG \$3.00 plus NCSS \$25.00 equals an annual fee of \$28.00.

Materials are part of a presentation to the National Council for the
Social Studies Special Interest Group: Psychology annual meeting,
New Orleans, November 27, 1980

RESULTS

The data analysis revealed that psychology as a separate course of study for credit was taught in 331 of the 554 Illinois secondary schools responding to the questionnaire (59.7%).¹⁰ The primary focus of this study was to go beyond the mere description of the general status of psychology on the pre-college level. This focus included the comparative investigation of psychology courses taught by teachers with different subject matter backgrounds and college course training. In particular, the possibility that the certification areas of these teachers would translate into different approaches to the course existed. This possibility was especially intriguing since no previous detailed data have been reported on the status of social studies teachers relative to this content area on this level of instruction.¹¹

One questionnaire item asked teachers to indicate what certification area they were currently using within the context of their present teaching position. Seven areas were listed with the eighth, or "Other" category, left open for certification areas not listed. Of the 331 respondents, 149 (45.0%) indicated their teacher certification area at that time was in the "Social Studies"; 67 (20.2%) indicated "Psychology", 65 (19.6%) indicated "Guidance and Counseling", 8 (2.4%) indicated "Administration", 5 (1.5%) "Science", and 4 (1.2%) "Home Economics". The 29 individuals marking the "Other" certification area reported they held certificates in such diverse content areas as Religion, English, Physical Education, Health, and Business.

In order to investigate how one's certification area may influence the approach one takes to a course, the researchers sought to examine the status of the pre-college psychology course from the perspective of three major groups of certified teachers: the 149 teachers certified in the Social Studies, the 65 certified Guidance Counselors, and the 114 teachers representing all the "Other" miscellaneous areas of certification. The remainder of this paper will stress the responses of these three groups of teachers from both descriptive and comparative perspectives.

In the Spring, 1978, a 4-page questionnaire accompanied by an introductory letter and a self-addressed, stamped, return envelope was mailed to 864 public and private secondary school principals in Illinois. The letter requested the principals to forward the questionnaire to the individual in their school responsible for teaching psychology. A second mailing directed specifically to the social studies department chairperson took place within a month of the first one. Eventually, 554 (64.1%) completed questionnaires were returned.

The 42 item questionnaire contained items that represented categories of data previous researchers had collected relevant to this curriculum area. The questionnaire has been used in essentially the same form since 1972-73 by the researcher.⁸ The adequacy of the individual items and entire questionnaire is supported by the fact that (a) it has become a model for other status-study researchers (Matiya and Gill, 1977), (b) it collects information considered vital for decision-making by precollege psychology textbook authors, publishers and sales managers (Fogerty, 1980), and (c) it represents a fair sampling of items which cut across a number of different and important variables directly related to understanding of the phenomenon known as "precollege psychology."

The raw data from the questionnaires were key punched for tabulation and statistical analysis by an IBM 360 computer. Besides the SPSS descriptive data package, crosstab, Chi-square, and ANOVA programs treated the tabulated data.⁹ Where appropriate, Spearman rank-order correlative coefficients were computed.

In addition to the teacher data, a number of schools were randomly selected for purposes of having the students enrolled in these psychology courses to complete a questionnaire directly related to them. By mid-Spring, 1,137 students in over two dozen schools returned completed forms via their teachers. Their responses were computer analyzed in the same way as the teacher data. As appropriate, the results of their responses will be incorporated within this paper as well.

STUDENT QUESTIONNAIRE ON HIGH SCHOOL PSYCHOLOGY

For the items below, please mark the most appropriate answer:

1. Your age: ___ a) 14 ___ b) 15 ___ c) 16 ___ d) 17 ___ e) 18 ___
2. Your sex: ___ a) Female ___ b) Male
3. Your race: ___ a) Black ___ b) White ___ c) Other(specify) _____
4. Your grade level: ___ a) 9th ___ b) 10th ___ c) 11th ___ d) 12th
5. Grade you received in Psychology for the last grading term: ___ a) A ___ b) B
 ___ c) C ___ d) D ___ e) F ___ f) Did not receive a grade

6. Below are a number of reasons or objectives for taking a course in Psychology in high school. Check those reasons which most accurately fit those you had for taking this Psychology course.

- ___ a) to help me in my vocational planning.
- ___ b) to help me develop an appreciation for Psychology as a field of scientific knowledge and inquiry.
- ___ c) to prepare me for college Psychology courses.
- ___ d) to eliminate many of the misconceptions I have about Psychology and psychologists.
- ___ e) to assist me in preparing for my future family life.
- ___ f) to assist me in developing a basic philosophy of life.
- ___ g) to help me understand and deal with my personal problems.
- ___ h) to assist me in understanding the vocabulary associated with Psychology.
- ___ i) to assist me in adjusting to life and in solving life's problems.
- ___ j) to help me better understand and accept myself as an individual.
- ___ k) to apply psychological knowledge to understand contemporary social problems and events.
- ___ l) to help me cope with problems associated with emerging adolescence.
- ___ m) other (specify) _____

7. Below are a number of topics and subjects that could be included in high school Psychology courses. Please mark those topics that you believe should be included in the high school Psychology course you are taking:

- | | |
|------------------------------|----------------------------------|
| ___ a) Intelligence | ___ m) Growth and Development |
| ___ b) Personality Theories | ___ n) The Adolescent |
| ___ c) History of Psychology | ___ o) Sensations and Perception |
| ___ d) Motivation | ___ p) Social Behavior |
| ___ e) Emotions | ___ q) Child Care |
| ___ f) Mental Illness | ___ r) Marriage and the Family |
| ___ g) Mental Health | ___ s) Drugs, Alcoholism, etc. |
| ___ h) Mental Retardation | ___ t) Love |
| ___ i) Statistics | ___ u) Parapsychology, Esp |
| ___ j) Learning and Thinking | ___ v) Abnormal Behavior |
| ___ k) The Human Body | ___ w) Other _____ |
| ___ l) Heredity and Genetics | ___ x) Other _____ |

8. Below are listed a number of different materials and teaching aids which your teacher might use to teach the Psychology course you are now taking. Mark the types of materials and aids you would want to see your teacher using to teach you psychology:

- | | |
|---|---|
| <input type="checkbox"/> a) A different kind of textbook | <input type="checkbox"/> i) Filmstrips |
| <input type="checkbox"/> b) Overhead transparencies | <input type="checkbox"/> j) Simulation games |
| <input type="checkbox"/> c) Audio-cassette tapes | <input type="checkbox"/> k) Posters of famous psychologists |
| <input type="checkbox"/> d) Materials for slow learners or slow readers | <input type="checkbox"/> l) Values clarification activities |
| <input type="checkbox"/> e) Movies/Films | <input type="checkbox"/> m) Student workbooks |
| <input type="checkbox"/> f) A weekly newspaper related to psychology | <input type="checkbox"/> n) Materials for classroom experiments |
| <input type="checkbox"/> g) Pamphlets related to careers in psychology | <input type="checkbox"/> o) Guest speakers |
| <input type="checkbox"/> h) A reference service for students working on psychology assignments and papers | <input type="checkbox"/> p) Sample psychological tests |
| | <input type="checkbox"/> q) Other (specify) _____ |
| | _____ |
| | _____ |

9. Below are listed a number of different methods available for teaching Psychology. There is also a scale to indicate how often these methods could be used. Mark how often you would like to see your teacher use each of the following methods. Leave blank those methods you do not know anything about.

METHOD	Very Freq.	Frequently	Sometimes	Rarely	Never
a) Textbook-and-lecture	_____	_____	_____	_____	_____
b) Lecture	_____	_____	_____	_____	_____
c) Teacher demonstrations	_____	_____	_____	_____	_____
d) Discussion (other than review)	_____	_____	_____	_____	_____
e) Student lab experiments	_____	_____	_____	_____	_____
f) Small group discussions	_____	_____	_____	_____	_____
g) Guest speakers	_____	_____	_____	_____	_____
h) Values clarification activities	_____	_____	_____	_____	_____
i) Field trips	_____	_____	_____	_____	_____
j) Other _____	_____	_____	_____	_____	_____

10. Do you have anything else you would like to report about you and your Psychology course? Please use the space below to write any additional comments:

List of Additional Reasons Why The 1,137 Illinois Students
Enrolled in the Psychology Course
(1977-1978)

Reasons for Take Course	Number of Students
1. I thought it would be interesting	29
2. I needed a credit	22
3. To understand the actions of others	18
4. It is required	18
5. To understand more about psychology	15
6. I needed the course to graduate	13
7. The class time fit my schedule	10
8. To see what psychology was all about	10
9. To help me deal with others	8
10. I thought it would be easy	5
11. This was the best of all the electives to choose from	4
12. I like psychology	4
13. I want to be with my friends who were taking this class	3
14. To understand children and how to deal with them	3
15. I liked the teacher	3
16. I was placed in here by my counselor	3
17. It was recommended to me by my counselor	3
18. Others told me it was a good class	2
19. To broaden my education	2
20. To understand more about the human mind	1
21. I didn't know what else to take	1
22. To "use" psychology on others	1
23. To add some variety to the kinds of classes I've been taking	1

List of Additional Topics the 1,137 Illinois Students
Thought Should be Included in Their Psychology Courses
(1977-1978)

Topics	Number of Students
1. Sex	5
2. Hypnotism..	3
3. The brain	3
4. Dream analysis	2
5. Transactional analysis	2
6. Parents	1
7. Schizophrenia	1
8. Relaxation Techniques	1
9. Mind control	1
10. Mental Institutions	1
11. Oral contraceptives	1
12. Behavior modification	1
13. The criminal mind	1
14. Freud's theories	1
15. Psychology research and experiments	1
16. Death	1
17. Religion	1
18. Juvenile Behavior	1
19. Practical psychology - day-to-day application of	1
20. ESP, Telepathy	1

List of Additional Instructional Aids and Methods the 1,137 Illinois
Students Wanted to See Used to Teach Them Psychology (1977-1978)

<u>Instructional Aids and Materials</u>	<u>Number of Students</u>
1. A mental patient (for observation)	2
2. Biofeedback Machine	1
3. Sample tests	1
4. Home-made movies and films	1
5. Optical illusions	1
6. Study Sheets (for upcoming tests)	1
7. Case Studies	1
8. Outline of class topics and activities	1
9. Oral reports	1
10. Individual projects	1
11. Reaction paper	1
12. No textbook	1

<u>Instructional Methods/Activities</u>	
1. Observations	3
2. Party	1
3. Experimenting on others (using principles acquired in class)	1
4. Free days	1

List of the Summary of "Additional Comments" the 1,137 Illinois Students
Made in the Free Response Segment of the Questionnaire (1977-1978)

Additional Comments	Number of Students
1. I thought it was interesting	51
2. I enjoyed this class very much	29
3. I had a very good teacher	25
4. I gained a lot of personal insight from this class	19
5. We need more diversity in methods	16
6. I learned a lot	14
7. This class has helped me understand others better	14
8. Everyone should take the class	12
9. This class was very beneficial	12
10. This course was very educational	11
11. I like psychology	9
12. The textbook is too difficult	8
13. This was the most interesting I've every taken	7
14. This was a difficult class	6
15. More discussion is needed	6
16. When application of learning was demonstrated I gained more insight	6
17. This should be a year-long class	6
18. Getting away from lectures was helpful	5
19. I think psychology is an important class	4
20. We need a different textbook	4
21. More out-of-class activities are needed	4
22. This class has fostered an interest in psychology as a career	4
23. There should be a follow-up (Psychology II) offered	3
24. Our textbook is very good	3
25. Getting away from the textbook was beneficial	3
26. Learning (memorizing) facts for tests is not going to help me	3
27. This should be a required class	3

Illinois

Additional comments - page 2

Number of students

28. Materials should be covered slower	3
29. This is a good class for college prep	2
30. This subject was easy to understand	2
31. This was an easy class (in terms of grades)	2
32. This class has cleared up some misconceptions about psychology	2
33. The teacher should take more effort to explain things	2
34. More movies	1
35. More time should be devoted to adolescent psychology	1
36. I haven't learned anything new	1
37. The reading and material were too difficult	1
38. The reading and material should be adapted to slow learners	1
39. Material should be covered faster	1
